

**CRM Activities at Southern Region Farm Machinery Training and Testing Institute.
Garladinne, District: Anantapur, (A.P)-515731.**

Director, SRFMTTI interacted with 130 trainees of various states on 09.07.2024 & explained about the CRM scheme.

Team SRFMTTI explained the use of implements used for CRM to the trainees of various states on 09.07.2024. Explained the CRM scheme, its impact like it involves less tillage operations & preserves soil moisture, soil and improve soil fertility, provide additional plant nutrients & environmental benefits.

Need of CRM:

- Effective nutrients management with waste & crop residue.
- Protect the environmental from pollution.

Benefits of CRM

- As a soil amendment maintain good soil structure, control soil erosion & soil temperature, maintaining microbial activity, Nutrient cycling & Increase water holding capacity of soil.
